

## **Effects of Forest Fragmentation on Tropical Systems**

### **Monday July 16, Afternoon**

- 14:00 **86.** Population density of *Dipteryx panamensis*, the food and nesting tree of the endangered Great Green Macaw (*Ara ambiguus*) in Costa Rica  
**Chun Sara Lai Ming and Carranza Sanchez Jorge**  
[sara.chun@duke.edu](mailto:sara.chun@duke.edu)
- 14:20 **166.** Establishment and growth of two tropical rain forest arboreal plant species in the context of a fragmented landscape: The role of Arbuscular mycorrhizal fungi.  
**Patterson Audra and Alvarez Sanchez Francisco Javier**  
[astrocaryum@gmail.com](mailto:astrocaryum@gmail.com)
- 14:40 **415.** Species and structural composition of church forests in a fragmented landscape of  
**Wassie Alemayehu, Sterck Frank, Bekele Tesfaye, Teketay Demel and Bongers**  
**FransNorthern Ethiopia**  
[Alemayehu.Wassie@wur.nl](mailto:Alemayehu.Wassie@wur.nl)
- 15:00 Coffee break
- 15:20 **51.** Rainforest Loss and Resultant Changes in the Avifauna of Palenque, Chiapas  
**Patten Michael, Gómez de Silva Garza Hector and Smith-Patten Brenda**  
[mpatten@ou.edu](mailto:mpatten@ou.edu)
- 15:40 **332.** Effect of tree diversity and distance to forest interaction on bird's in silvopastoral systems, Matiguas, Nicaragua  
**Ramirez Leonardo R, Harvey Celia A, Casanoves Fernando and De Clerck Fabricio**
