

## **Evolution and Genetic Diversity of plants**

**Thursday July 19, Afternoon**

- 14:00 **132.** Hybridization and genetic diversity of East Pacific black mangroves, *Avicennia germinans* (L.) L. and *A. bicolor* Standl. (Avicenniaceae)  
**Nettel Alejandro, Dodd Richard S. and Afzal-Rafii Zara**  
[anettel@nature.berkeley.edu](mailto:anettel@nature.berkeley.edu)
- 14:20 **582.** Genetic variation in eight populations of *Acacia brevispica* (Fabaceae: Mimosoideae) in East Africa tropical savanna, levels of fine spatial genetic structure and family structure.  
**Otero Arnaiz Adriana, Marshal Michelle, Swearingen Andrew, Ruiz Guajardo Juan Carlos, Stone Graham and Schnabel Andrew**  
[aotero@ine.gob.mx](mailto:aotero@ine.gob.mx)
- 14:40 **462.** The role of refugia in the intraspecific differentiation of *Aucoumea klaineana* (Burseraceae)  
**Born Celine, Alvarez Nadir, Ossari Simon, Muloko Nicole, McKey Doyle, Wickings E. Jean, Hossaert-McKey Martine and Chevallier Marie-Hélène**  
[celineborn@hotmail.com](mailto:celineborn@hotmail.com)
- 15:00 Coffee break
- 15:20 **247.** DNA bank of Brazilian endemic and endangered fauna.  
**Nogueira Denise Monnerat**  
[denisemn@hotmail.com](mailto:denisemn@hotmail.com)
- 15:40 **95.** Cryptic genetic bottlenecks and restoration of *Araucaria nemorosa*, a critically endangered New Caledonian endemic conifer  
**Kettle Christopher James, Jaffre Tangue Hollingsworth Pete and Ennos Richard A**
