

Global Change

Wednesday July 18, Afternoon

- 14:00 **48.** Rapid change in Amazonian forest dynamics: effects of climate change?
Laurance Susan, Nascimento Henrique, Condit Richard and Laurance William
laurances@si.edu
- 14:20 **466.** Climatic Change and the Amazon Forest Tree Phenology
Morellato Patricia and MoCambite Pinto Antonio
pmorella@rc.unesp.br
- 14:40 **236.** Using predictive models of species' distributions to evaluate the effects of climate change in Bolivia: conservation implications
Fernandez Miguel, Zambrana-Torrel Carlos M., Calderon Javier, Tejeda Wendy, Villanueva Gabriela, Villalpando Gabriela and Hamilton Healy
cmzambranat@gmail.com
- 15:00 Coffee break
- 15:20 **41.** Internal nitrogen cycling in tropical forest soils
Arnold Julia, Corre Marife and Veldkamp Edzo
jarnold@gwdg.de
- 15:40 **214.** Spatial variation in solar irradiance and the recruitment of rainforest trees at Khao Yai National Park, Thailand
Greenberg David, Brockelman Warren and Natalang Anuttara
greenber@lifesci.ucsb.edu
- 16:00 **651.** Modeling and predicting the effects of global warming on range shifts, biotic vacuums, and mountaintop extinctions in the tropics
Colwell Robert K. and Longino John T.
colwell@uconn.edu
