

Phylogeny and Phylogeography of plants

Thursday July 19, Morning

- 10:00 **47.** Origin and Evolution of *Spondias purpurea* (Anacardiaceae)
Miller Allison
amille75@slu.edu
- 10:20 **550.** Phylogenetic relationships among *Inga* (Fabaceae) species from Manaus, Amazon, Brazil.
Lemes Maristerra R., Alencar Raquel R., Coley Phyllis D., Farias Gabriela S., Kursar Thomas A., Porto Mahatma Sonhara A. and Pennington R. Toby
mlemes@inpa.gov.br
- 10:40 **125.** Phylogeny and introgression in Bornean Dipterocarpaceae
Kamiya Koichi and Tachida Hidenori
nazenazenenan@yahoo.co.jp
- 11:00 Coffee break
- 11:20 **302.** Comparative phylogeography of Caribbean wetland plant species
Rivera-Ocasio Elsie, Rauscher Jason T., Aide T. Mitchell and McMillan W. Owen
elsierivera@yahoo.com
- 11:40 **602.** Geographic origins and domestication processes in a tropical tree fruit, *Chrysophyllum cainito* (Sapotaceae)
Petersen Jennifer J., Parker Ingrid M. and Potter Daniel
jjpeters@ucdavis.edu
- 12:00 **198.** Modeling niche conservatism with community phylogenetic distance as a response variable: a model selection approach to the identification of metacommunities
Oliveira-Filho Ary, Pennington Toby, Rotella Jay and Lavin Matt
mlavin@montana.edu
