

## **Part 1. Population and Community Ecology of Tropical System**

### **Monday July 16, Morning**

- 10:00 **581.** Effect of the physical environment and land use history in the structure and composition in a sub-tropical dry forest in Puerto Rico  
**Agosto-Diaz Ramon**  
[rmmagosto@yahoo.com](mailto:rmmagosto@yahoo.com)
- 10:20 **323.** Plant community structure under and outside tree aggregates in “ Campo Cerrado” (Sao Paulo, Brazil)  
**Moura leila lcmourarc.unesp.br, Arasato Luciana**  
[lcmoura@rc.unesp.br](mailto:lcmoura@rc.unesp.br)
- 10:40 **391.** Determinants of tree species spatial distribution in a neotropical forest  
**Garzon Lopez Carol Ximena, Oliff Han, Jansen Patrick and Bohlman Stephanie**  
[c.x.garzon-lopez@rug.nl](mailto:c.x.garzon-lopez@rug.nl)
- 11:00 Coffee break
- 11:20 **21.** Palm Community Structure and Land Cover Changes in the San Juan Biological Corridor, Costa Rica  
**Wang Ophelia**  
[opheliawang@mail.utexas.edu](mailto:opheliawang@mail.utexas.edu)
- 11:40 **369.** Impacts of ancient Maya forest gardens on the tree species composition of Northwestern Belize  
**Ross Nanci**  
[nanci.ross@uconn.edu](mailto:nanci.ross@uconn.edu)
- 12:00 **373.** Tropical swamps in the Gulf of Mexico, relationship between geomorphology, hydroperiod and plant diversity.  
**Infante Mata Dulce and Moreno-Casasola Patricia**  
[dulce.infante@posgrado.inecol.edu.mx](mailto:dulce.infante@posgrado.inecol.edu.mx)

12:30 Lunch

## **Part 2. Population and Community Ecology of Tropical System**

### **Monday July 16, Afternoon**

- 14:00 **110.** Patterns of floristic differentiation among Atlantic forests and the influence of climate II: The southern scenario  
**Oliveira-Filho Ary, Jarenkow Joao Andre and Budke Jean Carlos**  
[ary.oliveira.filho@gmail.com](mailto:ary.oliveira.filho@gmail.com)
- 14:20 **384.** Community structure of bracket fungi (Polypores) and shelf fungi in Southeast Asia  
**Satoshi Yamashita,Tsutomu Hattori and Tohru Nakashizuka**  
[satosi-y@chikyu.ac.jp](mailto:satosi-y@chikyu.ac.jp)
- 14:40 **610.** Change in spatial distribution patterns of five species in a landscape in Chajul, Mexico

**Salinas-Melgoza Miguel Angel, Martinez-Ramos Miguel and Rodriguez-Velazquez Jorge Enrique**  
[ma.masm@gmail.com](mailto:ma.masm@gmail.com)

15:00 Coffee break

- 15:20 **644.** Comparing canopy accession of *Cedrela odorata* in a tropical dry and moist forest using tree rings  
**Brienen Roel, Zuidema Pieter and Martínez-Ramos Miguel**  
[roelbrienen@hotmail.com](mailto:roelbrienen@hotmail.com)
- 15:40 **580.** Spatial variation in palm fruit abundance across a tropical moist forest estimated from aerial photographs  
**Jansen Patrick A. and Bohlman Stephanie A.**  
[p.a.jansen@rug.nl](mailto:p.a.jansen@rug.nl)
- 16:00 **13.** Reintroduction of the threatened javanese palm *Pinanga javana* Blume  
**Widyatmoko Didik and Dodo**  
[didik\\_widyatmoko@yahoo.com](mailto:didik_widyatmoko@yahoo.com)
